

Recertification for 2010

If you want to referee in 2010 and your badge has 2009 on it, you must recertify. If you did not have the opportunity to get recertified in Carrollton you will need to go to NTSSA Referee Clinics List and find a Recertification Clinic. You do not need to belong to that association in order to recertify, however check their site for details. Do not delay as our spring season begins in early February.

Please take some time and review the laws of the game. Also remember that the exam is geared towards full-sided, full length FIFA games. We encourage you to please brush up on offside, fouls and misconduct and restarts.

Remember: USSF Headquarters will be sending you your 2010 Badge and Law Book - you will not get them after you take the recertification exam.

Grade 8 Referees: You will be required to take and pass a 100 question exam this year. You need to be prepared for a longer than usual grading and registration period. Grade 9 Referees: You will be required to take and pass 50 question exam, same as in the past.
