

## Rain Out Policy

We have a new rainout policy that will help all members be informed a lot better about rainouts!

During the week anyone can call the Carrollton or Farmers Branch city rainout phone # for games during the week. In addition Carrollton and Farmer Branch have added a Twitter option where you can sign up on their site at Twitter and get a field update via a text message on your phone immediately!

Of course if you are playing at a Carrollton field during the week you would use the city of Carrollton # and if your team is scheduled in Farmers Branch you would call the Farmers Branch #. **This is for during the week only and the field condition will be updated no earlier than 4:00PM. We also ask you that you do not call the soccer office during the week for rainout information as they receive the updates from the cities when you do.**

For the weekend please contact the CFBSA rainout phone #. We will try and update by 7:30AM or later. This is also for any member to call but we ask that you try the other options first so you don't tie up the phone line. We will be looking at the Twitter option and will announce it once we get it done. Also, for during the week and weekends we try and update the Field Condition box at the top right hand side of the front page of our web-site at [www.cfbsocket.net](http://www.cfbsocket.net) in a timely fashion. This is always a great place to look also!

Also note that if you have a game at another association that you need to go to our web-site and find the rainout # and policy of that association and contact them to see if the game is playing or not.

### Weeknights Only

**Playing in Farmers Branch (Cox or Pepper Parks) on Weeknights:**

- 1) 972-919-1455 or
- 2) [www.twitter.com/fbsport](http://www.twitter.com/fbsport) or
